

**SPERDVAC LIBRARY**  
**Alphabetical/Date Order**

This list presents the SPERDVAC Library entries in alphabetical order, and indicates on which CD the show is located.

**Titles** - 'A', 'The', and 'The Adventures of' are generally ignored in alphabetizing the series names. (For example, 'A Date with Judy' appears alphabetically as 'D'; 'The Adventures of Sam Spade' appears alphabetically as 'S'.) Similarly, 'The', 'The Adventure of', 'The Mystery of', and 'The Case of' are generally ignored in alphabetizing the episode titles.

**Order** - For the most part, each series is presented in chronological order, if exact broadcast dates are known. If a broadcast date is unknown or only partially known, the entry is presented *after* all entries with known dates. Syndicated series where broadcast dates are unknown are generally listed in sequential order.

**Dates** - For the most part, dates in each listing indicate the original broadcast date of the program. In the case of syndicated series, the date may indicate a known broadcast date, usually in a major market (e.g., New York or Los Angeles). In the case of some shows (particularly AFRS-produced programs), the date may indicate the *recording* date.

**Entries** - This list is based on the original printed Library catalogs which were in tape- or CD-number order, so a few entries may reference related programs by CD number. Refer to the CD-Order list for those programs. Also, a few programs that originally spanned two sides of a tape reel or separate tapes, may now be on a single CD. This is noted in most cases.

**Length** - Running times are based on the length of the original broadcast. Variations are noted.
